

Churchyard Grave Notes

The list of graves is alphabetical by surname. The dates are normally the recorded date of burial, in a few cases they are the actual date of death. Burials are recorded up to 1996 but the graveyard was closed 31st October 1990 except for ashes and special burials in reserved plots. Ashes interred in family graves and the Garden of Rest are recorded up to 1996.

Explanation of symbols in the list are below:

In 'Grave' column: the letter denotes the area of the graveyard, and the numbers the column and row location of the grave within the area.

In the 'Notes' column:

- a Date of death (otherwise date of burial)
- b Died in Action
- c War grave - Canadian soldier. These graves are nearly all in area D
- d Probable place of burial - no entry in Burial Register
- e Commemoration on gravestone but remains buried elsewhere
- AFG Ashes in Family Grave
- AGR Ashes in Garden of Rest. This is area H, within the larger area B. The interment date is given in the record, not the date of death.
- S Special notes: see below
- UG Unmarked grave: letter following grave number indicates position of one or more remains
